**Suggested timeline - Project**

- Week 2 (Nov 11 - Nov 15)
    - Start reading the project description
    - Meet the project members
- Week 3 (Nov 18 - Nov 22)
    - Implement/simulate uncoded transmission
- Week 4 (Nov 25 - Nov 29)
    - Read up on the Viterbi algorithm (lecture notes, web, etc..) and focus on hard decision
    - Think about implementation
- Week 5 (Dec 2 - Dec 6)
    - Implement/simulate coded transmission (Part I of the project)
- Week 6 (Dec 9 - Dec 13)
    - Part II of the project
- Week 7 (Dec 16 - Dec 20)
    - Report writing

Please note that this is only a suggestion and that you do not have to follow it exactly. However, the two submission deadlines **must** be met (Thursday, December 12, 2019, 11:59pm and Friday, January 10, 2020, 11:59pm) and are non-negotiable.
